

Light Reflectance Values

LRV (Light Reflectance Value) is the total amount of visible light that is reflected from any surface. In interior furnishing that can be furnishings, walls, ceilings, and flooring.

The scale for reporting LRV is based on 0 to 100, where 0 represents a surface or material which absorbs all light that strikes it and 100 represents a surface or material which reflects all light that strikes it. Because of finish, color, and texture of the material, no material is either totally reflective or absorptive, even whites and blacks do not approach 100 or 0.

Light Reflectance Values below were measured in accordance with EN 13745 Specular Reflectance, which generates both L* and LRV information. L* values are a measure of color depth or saturation associated with shade contrast as related to dark/light appearance. It is, however, not a measure of reflectance, but an element used in the generation of the LRV for the color.

Basketweave

COLOR	LRV	L*
Bark	25	46
Black/Gold	7	57
Black + White	14	44
Brushed Copper	9	35
Carbon	6	30
Chestnut	7	33
Earth	8	35
Galvanized Steel	8	35
Glacier	28	60
Harvest	35	66
Latte	23	55
Mango	22	54
Marble	50	76
Mineral Blue	8	35
Oyster	30	62
Platinum	19	51
Sienna	8	35
Titanium	15	46
White + Black	35	66

Bouclé

COLOR	LRV	L*
Black + White	20	51
Citron	42	71
Coffee	7	31
Cornsilk	37	67
Gilt	12	41
Grey	11	39
Ink	9	35
Mélange	32	63
Moon	47	74
Orange	29	60
Pebble	21	53
Pink	14	45
Salt	44	72
Turquoise	22	54
White + Black	40	70

Ikat

COLOR	LRV	L*
Bone	50	76
Dark Brown	8	33
Deep Grey	8	34
Fawn	21	53
Slate	8	35
Stone	21	53
Tweed	24	56
Walnut	23	55
White/Gold	33	64
White/Silver	33	65

Plaid

COLOR	LRV	L*
Grey	13	42
Multi	8	34
Tan	21	53

Reed

COLOR	LRV	L*
Ash	11	40
Bisque	40	69
Cinnamon	11	40
Clove	5	26
Sandbar	17	49
Seashell	36	66

Rib Weave

COLOR	LRV	L*
Black	7	32
Coconut	30	62
Lead	13	43
Pearl	25	57

Shadowboxer

COLOR	LRV	L*
Carmine	7	31
Cerulean	10	38
Coal	9	36
Pumice	27	59
Shale	14	44

Speckle

COLOR	LRV	L*
Blue	8	34
Mercury	11	40
Onyx	8	33
Taupe	15	45

Stripe
