

Thank you for your chilewich® purchase.

market fringe

PLEASE FOLLOW THESE CARE INSTRUCTIONS FOR MAINTAINING YOUR MARKET FRINGE FLOOR MAT:

For complete cleaning and maintenance instructions, visit MAINTENANCE.CHILEWICH.COM

Chilewich floormats are very durable and maintain their look over long periods of time.

INDOOR USE:

Do not iron. Do not machine wash.

For any wrinkling that may occur, lightly steam with a handheld steamer.

Avoid use of rubber castors or placing objects made of rubber on the woven floormat; discoloration will occur. A rug pad should be used underneath the mat to prevent slipping on smooth floors.

May be used on radiant heated floors, provided the temperature does not exceed 85°F/30°C. When moving or storing, roll up your mat on its original tube and loosely tie. Due to the nature of this weave, loose fringe may occur. This can be carefully trimmed if needed.

Spot cleaning: Brushless vacuum to remove loose dirt. Blot spills quickly with a lint-free damp cloth.
Do not scrub with a brush.

Deep cleaning: Hand rinse mat with water and light detergent, allowing it to air dry completely before placing on the floor again.

We recommend that you occasionally lift and air out your woven floor mat, which will allow both your mat and the flooring surface to ventilate and stay dry.

SPECIAL INSTRUCTIONS FOR OUTDOOR USE:

Chilewich woven mats can be used outdoors and will perform well with proper maintenance.

Best suited for dry surfaces.

As with indoor use, make sure to air out the mat occasionally by turning it over. A rug pad should be used underneath the mat to prevent slipping on smooth surfaces.

All Chilewich mats are made with the latest color technology to prevent fading. But, like all textiles, the mats may fade when placed in full sun for protracted periods.
