Thank you for choosing Chilewich.

Designed and made in the USA, your new Work Top is extremely durable.

Here's some information to help you use and care for it.

First, we recommend that you occasionally lift and air out your Work Top, which allows it (and the surface on which it sits) to ventilate and stay dry.

What not to do?

Avoid placing objects made of rubber on your Work Top, as this may cause discoloration. Do not machine wash or iron.

Want to take it outside?

Best suited to dry surfaces, your Work Top can be used outdoors and will perform well there with proper maintenance. It is treated to prevent fading, but, like all textiles, may fade when placed in full sunlight for extended periods.

Moving or storing?

Roll up your Work Top with the woven side facing outward.

Spills?

Blot quickly with a lint-free cloth.

Ready to clean?

Wipe face of mat with damp cloth, using mild detergent as needed. If heavily soiled, rinse mat with water and allow to dry. Scrub spots and stains with medium-bristle brush after treating with spot cleaner or bleach-based cleanser. Air dry thoroughly. When cleaning surface on which mat sits, allow surface to dry completely before replacing mat.
